

Short Behavioral Evaluation for Dogs (adapted from ASPCA SAFER test)

Please conduct this brief behavioral evaluation on dogs considered for transport. If there are no signs of aggression, please ask people in daily contact with the dog for their observations. If no one has seen any behavior that is cause for concern, the dog may be a candidate for transport. *It is not necessary to include this form in transport paperwork.*

NOTES

<p>Sensitivity Does the dog respond in an aggressive manner to any of the following?</p> <ol style="list-style-type: none"> 1. Looking into the dog's eyes 2. Petting the dog all over its body 3. Wiping the dog's foot with a towel 4. Lifting the dog's lip to look at teeth 5. Playing – running, squealing, making a loud sound, throwing an object <p><i>If the dog shows obvious aggression – snarling, growling, baring teeth, lunging, snapping, or biting, the dog is not a candidate for transport.</i></p>	<p>mild avoidance Good, Good — Good Good - wants to play</p>
<p>Resource Guarding Does the dog show any sign of aggression if you take away:</p> <ol style="list-style-type: none"> 1. Food 2. Toys 3. A high-value treat (rawhide, pig's ear) <p><i>If the dog shows obvious aggression – snarling, growling, baring teeth, lunging, snapping, or biting, the dog is not a candidate for transport.</i></p>	<p>Follows, not willing to surrender but no aggression</p>
<p>Dog-to-dog Interaction Does the dog show any sign of aggression while:</p> <ol style="list-style-type: none"> 1. Walking past other dogs' kennels 2. Meeting another dog, one-on-one <p><i>If the dog shows obvious aggression – snarling, growling, baring teeth, lunging, snapping, or biting, the dog is not a candidate for transport.</i></p>	<p>reacts with hostility to hostility benign to benign Face to face w Glinda, wanted to play. Glinda withdrew.</p>

Approaches cats with curiosity and caution,
would probably chase if they ran.
